

I understand that Sinclair Broadcasting is requiring their stations to air an anti-Kerry documentary days before the election. This is not the American way. This is the way of totalitarianism.

Those who use the public airwaves free of charge are obligated by law to serve the public interest. Media consolidation has put corporations in control the airwaves – extra profits for them are costing the American people our right to fairness and threatening the democratic ideal. We need to review and change media ownership rules so that they are fair and in line with the needs and rights of the people and preserve the common wealth. I would like my comments to be part of the FCC public record and I would like the FCC to investigate this matter.

Thank you,
Claire G. English
